We do not disclose your private personal information except in the limited circumstances described here.

Service providers. We engage service providers to perform certain functions and provide certain services. For example, we use a variety of third-party services to help us understand and improve the use of our Services, such as Google Analytics. If we use third-party AI models or services to power our AI features, we ensure that such providers comply with applicable data protection laws and privacy standards, and we do not permit them to use your data for their own training purposes unless we have obtained your explicit consent. We may share your private personal information with these service providers, subject to our obligations to adhere to this Policy and any other appropriate confidentiality and security measures, and on the condition that the third

parties use your private personal data only on our behalf and pursuant to our instructions. We share your payment information, including your credit or debit card number, card expiration date, CVV code, and billing address with payment services providers to process payments, prevent, detect and investigate fraud or other prohibited activities, facilitate dispute resolution such as chargebacks or refunds, and for other purposes associated with the acceptance of credit or debit cards.

In the event that we are involved in a bankruptcy, merger, acquisition, reorganization or sale of assets, your information may be sold or transferred as part of that transaction. This Policy will apply to your information as transferred to the new entity. Public information. We may share or disclose your public information, such as your public user profile information and public comments.

5. HOW WE PROTECT YOUR INFORMATION

Webull uses reasonable, industry standard security measures to protect information under our control from loss, misuse, unauthorized access, disclosure, alteration, and destruction. We maintain appropriate physical, electronic and procedural safeguards, including restricting access to personal information on a need-to-know basis, and limiting the amount and type of information available for downloading or transmittal. We also regularly conduct audits to ensure the effectiveness of our system. Please understand, however, that no security system is impenetrable. We cannot guarantee that our security measures will prevent hackers from illegally obtaining this information, or that our database and/or systems will not be subject to a cyber-attack.

We have established a data breach management plan. If there is a data breach involving the personal information of our users, we will activate the data breach management plan to contain the data breach to prevent data from being further compromised and take appropriate measures to inform you, including in the form of push notifications, public announcements, or other appropriate means.

You acknowledge that no safeguards are guaranteed to be completely effective. We strongly suggest that you perform all uploads in a secure internet environment and use a strong password

for your account. Please contact us (see HOW TO CONTACT US below) immediately if you have reason to believe your account security has in any way been compromised.

Webull retains your personal information for as long as necessary to accomplish the purpose for which it was collected, to meet our legal and regulatory obligations including compliance with our records retention practices, or as required or permitted by applicable laws and as permitted to meet our legitimate interests.

6. ACCESSING AND MODIFYING YOUR PERSONAL INFORMATION

If you are a registered user of our Services, we provide you with tools and account settings to access, correct, delete, or modify the personal information you provided to us in connection with your account. You also can download certain account information, including your portfolio.

Keep in mind that search engines and other third parties may still retain copies of your public information, such as any posts and comments you made in the Webull Community, even after you have deleted the information from the Services or deactivated your account.

7. HOW WE PROTECT THE INFORMATION OF MINORS

The Services are not directed to users under the age of 18 (or the age of legal consent for the jurisdiction you are located in) ("Minor"), we do not intentionally collect information from Minors, and we request that Minors not provide any personal information to us. If you are a Minor, you should not download or use any of our Services. If you are a guardian of the Minor and have any concerns about his/her privacy, please contact us (see HOW TO CONTACT US below). Should we discover that we have unintentionally collected personal information from the Minor without your consent, we will take steps to delete the information as soon as possible.

8. HOW YOUR INFORMATION MOVES GLOBALLY

We store your personal information on servers in the country or region that we provide our Services from and you will be deemed to accept their jurisdiction over your information.

Our products and Services are available across a number jurisdictions, each of which has different data protection laws that vary in the amount of protection they provide. In all cases,

we will make reasonable efforts to ensure that your personal information is adequately and equally protected. In providing our Services, your personal information may be accessed by our affiliates in jurisdictions other than where you use our Services.

Webull will not transfer any personal data relating to a natural person located in the European Economic Area, the United Kingdom, or any other jurisdiction that restricts outbound data transfer ("Restricted Regions"), from the country of origin without appropriate safeguards as required by applicable law and regulations (“Restricted Data Transfer”). To the extent we conduct Restricted Data Transfer, we will ensure that the transfer is lawful and the data recipients in third countries provide a similar level of data protection as within the Restricted Regions. We will abide by all applicable laws related to data transfer and put in place robust safety measures, including but not limited to the following:

- Using protection tools approved by regulatory bodies (like adequacy decisions).
- Applying recognized standard contractual clauses to our agreements.
- Creating internal data protection policies that bind our organization.
- Utilizing other safeguards that are deemed valid and align with the data protection laws of the restricted regions.

If you are curious about the specific ways we safeguard your transferred data or if you'd like more information on this topic, please feel free to reach out to Webull for a copy of these safeguards (see HOW TO CONTACT US below).
